**THE complete
integrated manage-
ment solution for
health care clinics!**

Finally a complete
management solution
tailored to your needs!

Everything you've dreamed of to manage your clinic:

- Complete patient file.
- Integrated digital imaging and document management of individual patient files.
- At-counter billing for professional procedures and products.
- Agenda with innovative availability search.
- Management of reminders incorporated in appointment scheduling.
- Management of communications (CRM) with patients and in-house messaging.
- Treatment plan and scheduled visits.
- Individual financial statements for each professional and according to type of treatment with interactive drilldown.
- Statistics and graphical analysis of a clinic's profile.
- Financial management of inter-company and profit centre situations.
- Payroll and direct deposit by telecommunication.
- Management of inventory, purchase orders and sales orders.
- Costing of customized production orders.
- Powerful personalized report and form generator.
- Customizable work window system.
- Access and security manager.
- Full integration with office tools such as MS-Word™ and MS-Excel™.
